MANACCOM OFF TO A GOOD START

The newly-acquired business of Manaccomm has recorded its highest monthly sales in its 21 year history for the month of September.

The effective date for the acquisition was 31 August 2007 so the Manaccomm results for September will be consolidated into Jumbo's results.

The record month is mostly attributable to the release of the Trend Micro Internet Security 2008 range of software which includes an anti-virus and anti-spyware software.

“This is a perfect start for the new acquisition and highlights the abilities of the staff at Manaccomm and the potential of the business”, said Mr Mike Veverka, CEO of jumbo.

On 20 September 2007, Jumbo announced that Manaccomm had signed a new sales agreement with Trend Micro, a global leader in IT protection and listed on the Tokyo Stock Exchange with a market capitalisation of over \$6 billion.
